

# SPACEMAN DAN'S FUN SHEET

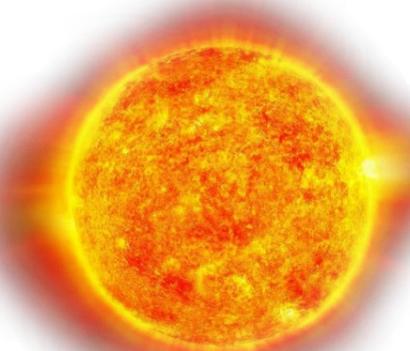

Rocket Ross is on holiday with Photon Frankie! The Sun can burn our skin if we are not careful. Can you help them by circling all the objects which help protect us from the sun's rays?

Add some colour to this beach!

Spaceman Dan has set you a quiz about The Sun! Can you write down whether each fact is true or false? The first one has been done for you!

The Sun is a planet...

FALSE

The Sun provides energy on Earth...

The Sun is very cold...

The Earth orbits around The Sun...

The Sun's rays can burn our skin...

The Sun is the closest star to the Earth...

The Sun never changes...

The Sun's light takes 8 minutes to reach us...

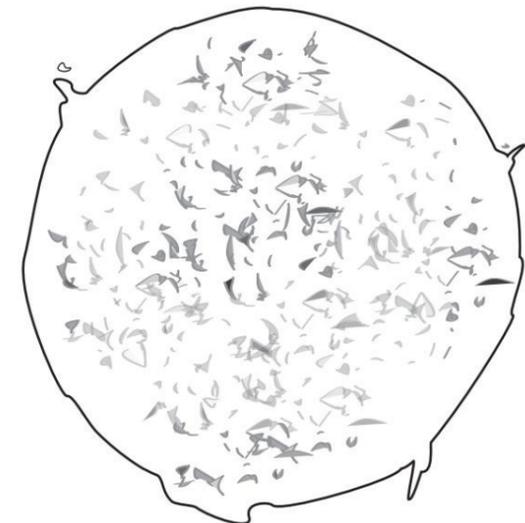

The Sun is almost a perfect sphere...

The Sun is also called Sol...

Photon Frankie is researching the structure of The Sun. Read her fun facts and colour in her picture!

- The Sun is a big star in the middle of our solar system.
- The Sun is very old. It has been around 4.57 billion years.
- It could burn for another 5 billion years.
- It is very hot. Its temperature can reach 15 million °C.
- The Sun is classified as a yellow dwarf star.
